

# How to change the nameservers for your domain from your client account

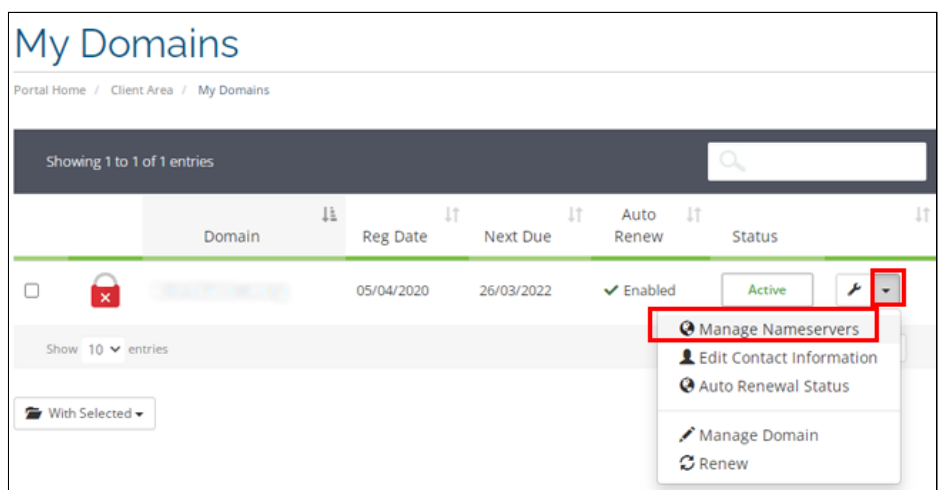

To change your Nameservers for your domain registered with us, you need to follow the following steps:

1) [Log into your DomainKing Client panel.](#)

2) In your client area click on the **Domain** > “**My Domains**” link on the top navigation bar.

3) Now you need to click on the “**Manage Nameservers**” option next to the domain for which you want to change the Nameservers.

4) Scroll to Nameservers category and then select one of the following option:

“Use default nameservers” Select this option to point your domain to our default free DNS Nameservers. Following are our default Nameservers.

ns1.dknoc.com  
ns2.dknoc.com

“Use custom nameservers (enter below)”: Select this option if you want to enter any custom Nameservers of your hosting provider.

Managing

Portal Home / Client Area / My Domains /

Nameservers

You can change where your domain points to here. Please be aware changes can take up to 24 hours to propagate.

☒ Use default nameservers

☐ Use custom nameservers (enter below)

Nameserver 1

Nameserver 2

Nameserver 3

Nameserver 4

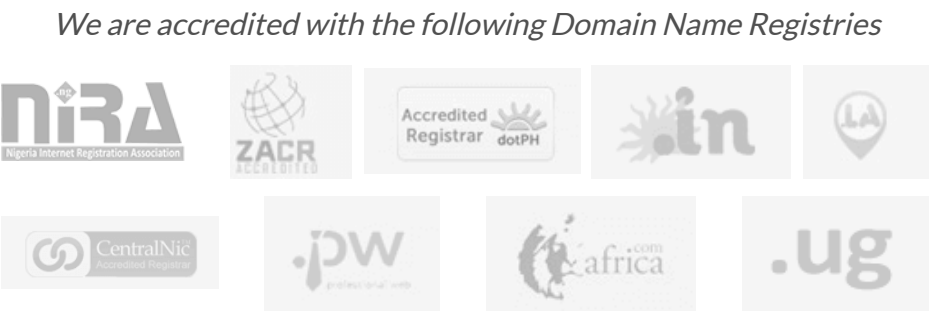

Nameserver 5

Change Nameservers

Enter the  
Nameservers of  
your hosting provider  
in the text boxes.

5) After you have entered your preferred Nameservers then click on the “Change Nameservers” button to apply the changes.

**Note:** After nameservers have been changed, please wait for 24-48 hours for the DNS settings to propagate across all ISPs.
